

Graduate students:

*Need to analyze quantitative data
for a thesis or paper?*

Need to do a survey for your thesis?

Want to learn how to use SPSS?

THEN ENROLL IN SOC SCI 201 & DEMO 225.

SOC SCI 201: STATISTICS FOR THE SOCIAL SCIENCES

Soc Sci 201 will introduce you to the basic statistical concepts, methods and techniques used in social science research.

Topics covered:

sampling
normal distribution
hypothesis testing
tables and graphs
measures of association
measures of central tendency
and variability
chi-square
ANOVA
linear regression

Schedule: Fridays, 1-4 pm

DEMOGRAPHY 225: STATISTICAL ANALYSIS OF POPULATION AND RELATED SURVEY DATA USING SPSS

Demo 225 covers the entire research process from conceptualization of a research problem to data analysis. It focuses on data processing and statistical analysis using SPSS.

Lecture classes are two hours and laboratory sessions are four hours weekly. (2 units lec, 2 units lab)

Schedule: Tuesdays, 1-7 pm

To enlist in Soc Sci 201 or Demo 225, look for Ms. Nea Santos at the Director's Office at the UP Population Institute, 3/F Palma Hall.
